Description

Treba da donesemo odluku o održavanju takmičenja, ZEPS, OPP, MixTeam. Molim vas da pogledate program rada Jozefa Haršanijja, koji se kandiduje za predsednika EBL. Mi sa njim imamo odlične odnose od ranije. Rekao je da će nam pomoći u mnogo čemu ako ga podržimo.

Poštovani, kao što znate za vreme evropskog prvenstva u Portugalu će se održati izborna skuština EBL.

Mi smo se već dogovorili, i u tome smo jednoglasni, da se podrži mađarski kandidat Jozef Haršanji.

Molim vas da mi na ovaj e-mail potvrdite dogovor, da ste saglasni sa izborom gđina.Haršanjija za predsednika EBL, kako bismo imali dokaz u arhivi.

Srdačan pozdrav, Ivo.

Josef Harsanyi for EBL President

Program for next 4 years.

The ideal EBL Team will be created to serve the bridge sport in our Zone1 and the NBOs of our Zone.

The members of EBL Executive Committee will first outline, then manage and control the execution of programs of EBL.

An extended working network of Executive Committees together with the 20 existing EBL committees will successfully liaise with our NBOs and with the World Bridge Federation.

We shall develop projects to support the marketing activities of NBOs and extend them to all member NBOs. These marketing plans will be based on the most successful programs to attract new members **and** to reorganize schools and university bridge.

The organization of continental events will be considered as the central task of EBL.

CONTINUING EXISTING PROJECTS

The EBL Championships and events will be carried out over the coming years as they were conceived by previous EBL Executive Committees led by Jan Kamras, Yves Aubry, Gianarrigo Rona, Jose Damiani and earlier Presidents.

Supporting Youth bridge activities will be continued and expanded.

Elements -

- A. School projects – adapting and distributing the best teaching systems. Examination and proposals for improvement by EBL certified teaching experts in agreement with local governments and education and sport organizations.
- b. Supporting bridge teachers and coaching activities to develop national educational programs. The EBL Youth Coach seminars started in 2015 in Tromso followed in 2016 Liepaja and Opatija 2018 created a network of competent youth trainers and coaches. This network will be strengthened.
- C. Regular regional tournaments will be held for all age groups.
- D. Improving co-operation with EUSA and FISU. We shall increase our influence on the national youth sport committees to build up a better relation between NBOs and EUSA/FISU. We will try to fulfill the requirement of international University Sport Organizations to run national university championships. In case of small countries, the universities will be combined with leagues of teams from other countries.

The EBL will retain the link between NBOs and EBL in Tournament Directors' Education

The yearly TD Workshops help all NBOs with the high level education of promising TDs. Most participants of former courses were later able to educate lower level TDs in their home NBO using the collected knowledge of these TD Workshops.

Officers' Seminars will continue to be held biannually.

Since they began, these seminars have provided valuable information for NBOs in addition to being a democratic forum for the exchange of views. The new EBL Officers' Seminars Committee will consult with NBOs to decide on the program for 2024 and 2026.

FINANCIAL STABILIZATION and COST SAVINGS

The EBL's income has been reduced in the last two years due to the pandemic and its impact on the finances of NBOs. The new Treasurer will keep a stable balance, to be able to fulfill the tasks of EBL as defined by the Statutes and established practice.

We shall continue on the course of low budget championships and keep the management costs as low as possible. No exaggerated lawyers' cost will be allowed.

No exaggerated lawyers' cost will be allowed.

In the next two years, we shall not change the twelve-year old algorithm for the calculation of yearly membership fees of NBOs.

To help attract more NBO members and improve the position of bridge in the society of sports is an other central task of EBL. A new EBL-Bridge-Marketing-Unit will be formed to support NBOs in accessing more coverage in media and social forums. Vote for EBL Executive candidates, who bring know-how from countries with good bridge marketing experience.

The EBL will help NBOs to build up sponsor relations by developing ambassadors to potential local sponsors.

INTRODUCING NEW SYSTEM FOR CHAMPIONSHIPS AND FOR HIGH LEVEL REGIONAL TOURNAMENTS

The Champions Cup should be open for all EBL NBOs. NBOs above 20.000 members are entitled to nominate two club teams and NBOs above 40.000 members may nominate three teams to the qualification. The first qualification should be played in Groups, with the best 16 teams from the qualification groups to play the KO-phase.

The European National Team Championships starting from 2024 will be planned to run in a similar system for teams including only registered players of the NBO.

These two changes are intended to serve the interest of NBOs.

The Open European Championship remains attractive for a broad level of bridge players all over the world.

The future development of tournament technology can result changes in format of championships, which will serve the interest of bridge sport. The new technological alternatives will be tested immediately after my election.

The work of Investigation and Disciplinary Committee will be improved based on their six years' experience. The aim is on one hand to continue to exclude cheaters and unfair actions from the championships, on the other hand to avoid serious losses to the international bridge sport through allegations without a proper basis. The legal interface between EBL and CAS will be firmly established in the interest of acceptance of their judgements by the world of players.

All members of the new EBL Executive Committee with myself as elected President will actively co-operate with all positive NBOs to find the best way to recover from the damage caused by the pandemic.
